DATE

15 December 1975 25X1

SUBJECT

AREA: Defensive Missiles

IEG PI NOTICE

DISTRIBUTION:

All PI's

No. 92-75

TITLE/SIGNIFICANCE:

New SAM Transporter-Launcher Identified at the Emba Missile Test Center.

COMMENT: The new SAM Transporter-Launcher has three missiles, 25X1

25X1
The missiles are mounted atop the transporter in an arrangement resembling SA-6 missiles on a TEL. However, the missiles are smaller in size than the SA-6 and are mounted more toward the rear of the transporter-launcher. This is the first observation of this missile at Emba. However, the transporter-launcher, which is about 25X1
has been present since December 1972. 25X1
